	<p>Agenda approved by consensus.</p>
<p>Items III</p>	<p>Miguel Martinez:</p> <p>Guest speaker Miguel Martinez, President & Founder of at MTClife gave participants a presentation on “Increasing Parent Engagement – A Proven Formula”. In his presentation he discussed the “three legged stool” and the importance of balance.</p> <p>Mind, body and spirit three things must be present to be at peak performance, however the pandemic took something away. We understand something is wrong as a result of the pandemic but we are not sure what it is. Three legs is the bare minimum to stand/function.</p> <p>Pandemic unbalanced us. It took one or two of these elements away. Mind and body are aligned, but missing spirit you lack purpose. Spirit and body, but missing mind you’re lacking in progress you’re not learning or growing. Spirit and mind, missing body you’re lacking energy.</p> <p>Pandemic brought about stressors: Change in routine, Zoom fatigue, breaking health care activities, missing significant life events, loss of security and safety, loss of reality.</p> <p>To build a habit you need a 1) trigger, 2) engage in a routine 3) reward. We can't change the trigger, and we can't change the pleasure, all we can change is the routine.</p> <p>How to change the routine? Be aware you have a problem. You have to have a desire. Personal passion Knowledge Focus on a solution Perseverance</p> <p>To be successful in engaging parents, students must be part of the process. First address students, follow up with a presentation to parents. Remove barriers, enabling both parents to attend (i.e. provide child care for the event).</p> <p>Miguel will share his one pager worksheet with OAPCE to write out resolutions.</p>
